# About Us & Our Philosophy

**Moisture Salon** opened our doors in May 2013. If you're looking for an "average" salon, that's not us! We pride ourselves on our unique services that cannot be found anywhere else in the Capital District.

**An exclusive curly hair salon, we cater to all kinds of curls, waves, and super curly hair.**

Founded by **Curl Expert/Deva Certified Curl Specialist**, Ron Suriano, **Moisture Salon** provides a one on one experience. Unlike other salons, you will never find yourself surrounded by several other clients and stylists at once. Without that extra noise and commotion, we can truly focus on **you**.

A great cut is not our only goal. We want to provide you with an experienced education so you can learn how to do your curls right on a daily basis. You will

get the personal attention you need to learn how and what to use on your hair to ensure the best curls you can get.

We strive to be the best and are constantly educating ourselves as well. We attend trainings, workshops, and conferences throughout the year to make sure we're staying on top of the latest curl techniques, products, and innovations so that we can continue to grow and be at the top of the leaderboard in curly hair care to ensure that you have the best experience possible.

We only sell and use the best products out there for

curly hair. We believe that natural is best. The more natural hydration you can provide your hair, the more your curls will thrive, and you can finally say **"goodbye to frizz!"**

## Ron Suriano

Ron Suriano, owner and Curl Expert/Deva Certified Curl Specialist at **Moisture Salon**, had a lifelong dream of becoming a hair stylist, but he didn't pursue it right away. Originally educated with a culinary degree, Ron switched careers at 39 years old. He

trained here in upstate New York, then took his dream to New York City after graduation. He continued his training and assisted in some of the best salons in NYC, including Edris Salon, located in the meat packing district, where he trained with cutting edge coloring skills on super curly/multicultural hair. Ron left Edris Salon to work on the Upper East Side at Joseph Martin Salon. Unfortunately, they closed and merged with Mizu Salon on Park Ave. Ron stayed with the new owners and enhanced his coloring technique knowledge under their tutelage. After that, he moved on to the salon that would end up being a career changer – **Devachan** in SoHo. It was here where he became truly passionate about hair – **not just any hair – curly hair!**

At Devachan, he trained in the curly girl method and then served as assistant to the original curly girl herself, **Lorraine Massey**. He continued his training in all aspects of curly hair and was lucky enough to observe the trade by the best stylists in the business. While at Devachan, he perfected the one-of-a-kind Pintura coloring technique for curly hair, as well as the Deva Curl Waterfall Cut.

It was also here where he learned what a dramatic difference the right products can make. Using the Deva products, he was able to see how creating healthy and well hydrated hair can not only improve the entire condition of your hair, it can also significantly cut the daily time needed to spend on your hair.

Ron became a member of the **Curly Hair Artistry** in 2013. This international organization is composed of curly hair stylists from all over the world devoted to one goal – working to promote and educate curly people on how to manage and consistently have the best curly cut ever. Ron is also an **Educator** for this amazing organization of passionate curl stylists. He teaches a cutting technique and sink work with different products to achieve the best results for all kinds of waves, curly, and super curly hair.

In May of 2015, Ron attended the first ever New York City Deva Curl Academy Certification. This certification was only available for advanced Deva Stylists to prove to the Education Division of Deva Curl that they could properly perform the required

Deva Cuts (Classic Waterfall and Deva Bob) and the Pintura Highlighting Technique. Attending this Certification Class has allowed Ron to provide his clients with the best curly cut by Deva Curl standards. This endorsement as a **Certified Curl Specialist** from Deva Curl is just one example of Ron's ongoing efforts to maintain and continue to grow his knowledge for curls.

Knowing how the upstate area was severely lacking in resources for natural curls, Ron decided to leave the city to bring what he had learned to the area. He constantly strives for strong customer service. He always listens to his customers' needs and wishes to achieve that final result that will be both properly cut and pleasing to the client. **He uses the unique methods he learned, which are not standard in the rest of the industry, to achieve amazing results that are natural, flattering, and guaranteed to put a smile on your face!**

## For Your First Visit...

Everyone with curly hair knows how daunting it can be to go to a new place for the first time. You suddenly remember every traumatic haircut you've ever had, but no more! You can be sure that you and your hair are in the most capable hands curly hair can ask for, and your visit will be fun, informative, and sure to send you out with a smile on your face!

Come in with your hair dry and in its natural state. Be sure it is detangled (not brushed!) and not pulled back or in a bun. It should be hanging loose so we can easily see your natural curl pattern to give you the best cut possible.

Tell us what you're hoping to achieve with your hair and what your biggest obstacles are in your daily care. Once we assess the condition of your curls, we will begin the dry cut, curl by curl.

After your cut, we will move to the sink so you can experience the joys of either a great lather or no lather cleanse! We will show you step by step how you can achieve the same effect with your hair at home. You'll learn how to style, dry, and revive your curls each morning so you can recreate your new fabulous curls every day!

Expect to see instant results with your hair. While damaged curls can take a while to achieve their full potential, you can see results even after just one session with the proper products and care for your hair.

We'll send you home not only with a great cut that's going to last you longer than a traditional cut, but also with all the knowledge you need to maintain healthy, hydrated curls that you will finally love!

**Schedule your appointment today!**

**Cancellation Policy:** *If you need to cancel any appointment, please give **Moisture Salon** 24 hours notice. ## Why Are Curls Different?

A hair cut is a hair cut, right?

Not true with curls. **Curls** need to be handled in a completely different way than your standard hair services provide.

For example, a standard wet cut requires the stylist to comb or brush the hair. If you have any type of curls, this will stretch them out. It dissects the curl pattern and can leave an uneven mess. Many standard stylists will also thin or texture the curls. This only creates more frizz and can take months or even a year to fix!

**Curls should never be brushed – wet or dry!**

A dry cut leaves the hair in its natural state. No

curls are alike, so this allows the stylist to see where the hair lays and how the curls spring up (or not). It will be cut by either a curl-by-curl technique or by a light lift of the curl in sections to achieve the best cut possible.

When searching for the right stylist for you, be sure to ask a few questions:

- Do they cut dry?
- Do they comb or brush the hair?
- Do they texturize or thin out curly hair?
- Do they use standard shampoos with silicones and sulfates?

Be sure they use proper curly girl approved products. While there are plenty of lines that cater to curls, many of them do a horrible job of helping to control frizz and provide the proper hydration that curls desperately need.

- How many curly cuts do they do a week?
- Does their website show pictures of their work?  
Are there plenty of pictures of curly hair?

If not, proceed with caution – they likely do not

have real curl experience and/or they're not passionate about their work, which could mean trouble for your hair.

- How long do their cuts last?

A good curly cut should easily last you on average 4-6 months!

We hope this information is useful in choosing the best cut and curl stylist that will make all your worries go away!

You can trust us at **Moisture Salon** to give you the superior service and education you need to achieve your best curls!

Owner **Ron Suriano** always says to clients, "**Your hair is a result of what you do to it, and what you put into it... So if you want to change your hair, you have to change those things.**"

*"Moisture Salon is THE ONLY place to go to get your **curly hair cut** in the Capital Region. Ron's dedication and passion to curly hair goes far unmatched to any other salon "claiming" to cut curly hair. I've tried plenty of other salons prior to finding Ron Suriano and Moisture Salon, and there is no other that compares. **I love, love, love Ron and his salon!** I actually leave with curly hair that looks amazing, and can do it myself at home so easily after Ron showed me how I should be styling my hair. I love my curls, and finally they love me back! I will not go anywhere else. Thank you Ron for all you do! Amazing!"*

*–Melissa S.*

*"My daughter was bullied at school because her hair was 'poofy' and 'cotton candy' like. Ron changed her confidence and curls and she went into school so happy*

*for once. **Thank you for changing her life!!**"*

*–Molly Z.*

*"Although I'm not a stranger to curly cuts, today was my first time meeting Ron. My cut today was absolutely far superior to the last few curly cuts I've had. Besides the great cut, Ron took the time to explain exactly how to get the same results at home. While I'm already familiar with the basics, Ron was able to show me where and how I could improve my styling technique. I have not found a stylist who was able to teach me something new about taking care of my curls since my first curly cut over two years ago, so this speaks volumes about his knowledge of curly hair. **Absolutely, positively worth the hour and a half drive.**"*

*–Corrina M.*

*"**Ron is so educated in his work.** This was the first time I left a salon confident that I can style my hair curly and never have to straighten it again! If you are considering going, stop and make an appointment, you will be amazed!"*

*–Michelle J.*

*"I have to admit, I was TERRIFIED to try someplace new. It has always been a disaster in the past. But I was so curious about Ron and Moisture Salon that I decided to give it a try – and I'm so glad I did! **My hair came out beautiful, my first cut lasted over 6 months, and I actually can't wait to go back!**"*

–Jenna L.

*"**Ron is the Curly Hair Angel**, and next time I go for a cut, I will offer gifts at the alter, cause I tell you, it is a spiritual experience. I must tell you, I don't like salons, maybe because of all those years of bad hair cuts for a Wavy Woman like me. But Ron is a total game changer. His artistry is amazing, but his loving heart is just as good. I really enjoyed learning from him and shooting the s\*\*t, which he does really well. I felt inspired to try some new ways to style my hair and am having great success with some new products. My hair has never looked this good curly. **I will make this 2 and 1/2 hour drive again in 4 months or so to learn more, laugh more, and continue the journey.** If you have wavy or curly hair, do yourself a favor and let this artist design your hair. This is by far the most fun I ever had in any*

*salon. Thanks, Ron!"*

–Melinda S.

*"If I could give this salon 10 stars, I would! I can't believe I've been trying to tame my hair for so many years when an hour with Ron completely changed my curls. I still can't believe this is MY hair. Thanks again and again, Ron."*

–Amy L.

*"Love that this man has taught me to easily LOVE my natural curly hair rather than hate it. I have fought with my curls my whole life and what made it worse was never having a hair stylist or even someone knowing how to cut my hair. All curly girls looking for someone who can work with your type of curl and show you your hair's natural beauty... go to Ron. **No artificial processing – just moisture and skill. Love him!**"*

–Karen S.

*"Ron is a miracle worker! My hair was dry, frizzy, and unruly. **He worked his magic and tamed my wild hair into beautiful calm tresses. Thank you so much!**"*

–Jenna P.

*"I never thought I could roll out of bed and just spritz my hair to bring my curls back to life. My beauty routine has been cut in half and I don't look "slept in." **Thanks Ron, you're terrific.** Can't wait to bring my daughter in next week for her curly cut!"*

–Elizabeth L.

*"I am the person who always intends to write a review and never does, this is one time I must follow through! So...I admit I was petrified to get my hair cut..I had a traumatic experience a few years back, well I would say within 5 minutes I felt completely comfortable. **The place itself is warm, inviting and immaculate! Ron is warm, genuine, knowledgeable and passionate.** The one on one is great...I learned some great tricks and am so excited to once again embrace my curls...the cut was fantastic and yes, I bounced my hair everywhere today! Thank you Ron for restoring my faith. ..curly girls, get to Moisture....you won't be disappointed!"*

–Donna B.

*"Ron is amazing! I came in after seeing pictures on Facebook, and was not disappointed. He takes his time to make you feel comfortable. When you leave, you feel beautiful! There's never a "push" for products...you will genuinely want them when you see how great your hair looks! The best part? **It's been almost a week since my appointment and my hair still looks great. The fact that I can recreate the look myself makes it all worthwhile!**"*  
—Allie F.

*"I was so happy to 'stumble' upon the Moisture Salon during my lunch break some months ago. Finally a place for curly heads like mine! I quickly scheduled an appointment for that very same week and it was the best thing I could have ever done for my poor head of historically mistreated and misunderstood hair! The salon is first and foremost a beautiful, clean, and welcoming space. Ron is a true professional. I left feeling renewed and pampered after my service. My daughter saw him shortly after and left equally as pleased. I returned some months later for color and Ron is also a very skilled artist in that area. I have never felt that I have a stylist or salon of my own and have rarely ever*

*gone to the same place more than once. Not any more! I have gotten so many compliments about my hair since going and now following Ron's care routine and product recommendations. **The Moisture Salon is such an awesome addition to Schenectady and the Capital District! I cannot thank Ron enough! So simply put...I highly recommend!"***
