Farmers' Markets

BY JENNA CAPUTO

While much of NY State is on "Pause," our local farms are still doing what they do best! And YES, many of the area's Farmers' Markets are still running with modifications to help keep people properly distanced and with increased opportunities for hand sanitization. Some of the markets are offering pre-ordering and curbside pickup as well. So instead of spending time at the grocery store, support our local farms at the following markets for the best food around. And while you're there, be sure to thank them for continuing to keep the community happy and healthy!

Remember to wear your mask and be sure to check their websites for any updates or changes based on the latest recommendations.
